Olti Abazi

Full-Stack Developer

Full-stack developer building clean, modern web applications end to end — from FastAPI and PostgreSQL backends to React and TypeScript frontends. I turn real product requirements into shipped, maintainable features.

EXPERIENCE

Full-Stack Developer Intern · Genpact

Mar 2026 – Jun 2026

Full-stack development internship · Agile / Scrum team environment

- Built features across the full stack — **Python & FastAPI** backend (PostgreSQL, SQLAlchemy) and **React, TypeScript & JavaScript** frontend.
- Worked on **FieldRoute**, a field-service dispatch web app, owning the customer-portal vertical: API client layer, authentication / login and job-tracking pages.
- Collaborated through multi-sprint Kanban cycles, using **Git, Docker and Linux** in a containerized development workflow.

Web Developer (Freelance) · Urban Group

Aug 2024 – Present

Construction & sanitary company · urban-grup.com

- Designed and developed the company's first professional website — service showcases, project galleries and a contact system, fully mobile-optimized.
- Continue to support local Kosovo businesses with web development and design.

PROJECTS

E-Commerce Platform — Capstone / Thesis Project

Full-stack e-commerce app for a clothing store with catalog, cart and checkout flows. Evaluated with real users (SUS usability score **79.5**).

React · Node.js / Express · MySQL

Prime Estate — Real-estate agency landing page

Modern property-listings site with filtering (sale / rent / investment), animated sections and full Albanian copy.

React · UI / UX · prime-estate-ks.netlify.app

WE CLEAN — Cleaning-service landing page

Conversion-focused marketing site with service cards, process flow and booking CTA, designed mobile-first.

React · UI / UX · we-clean-ks.netlify.app

COVID-19 Vaccine Info Site — Innovation Academy

2022

Informative site with interactive data visualizations and an FAQ section, built to counter misinformation.

HTML · CSS · github.com/Oltii/Vaksinimi-Vaccine

EDUCATION

BSc Computer Science · Universum Int'l College

2025 – 2026 · Prishtina

3rd year · Computer Science

Web Application Development · Cactus Education
